Karl F. Wheatley, Ph.D directs Cleveland State University's early childhood teacher education program. He is a staunch supporter of public education and a fierce critic of corporate-style educational policies, including high stakes testing, standardization, and privatization. He has spent the last 12 years studying how people get fooled about "what works" in education (and other fields) and is currently finishing a book on the topic.

HEIGHTS
coalition for
PUBLIC
education

We are parents, teachers and members of the Cleveland Heights—University Heights community who are dedicated to a system of public schools that provides all children an education that gives them the opportunity to succeed in life. We believe in our schools, our teachers, our families and our students.

State mandated tests are not legitimate measures of the quality of education students experience or our community values. We advocate for the end of state and federal policies that are harming children and public education.
